ing organized by the Art School of the Museum be called the Jacob H. Lazarus Travelling Scholarship. The famous Prix de Rome, cov-eted by all French students at the Beaux

makers buy up all the pieces of two and three inch watered and gros grain ribbon in popular shades and use them for the plaits and uffles on silk and imported cotton dresses. Usually two rows are applied to the hem. The finish is pretty and easily made.

When tablecloths and napkins begin to break away in many places, it is wasted time to try to repair them to any extent. The economical treatment is to take the corners and other parts that are still firm, and make is, I take out the interest and give you the them into napkins for nursery or emergency use, or into towels to wipe the baby. But the wear of table linen can be somewhat increased by running the tiny spots where a thread has broken. The ordinary hard twilled spool cotton does not adapt itself to this use as well as the soft tambour cotton or then floss. These match more nearly the threads of the linen, and press smoothly in the laundering. Size 7 in the tambour cotton. and 1 or AA in the linen floss are well suited to the ordinary grades of damask. The same thread should be used in mending damas, making his towels, and in coarser number for the crash ping-paper.
